

RE: Letter of Support for Jody Holmes' Sustainability Education Program

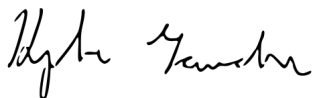

To Whom It May Concern:

I am writing this letter to express my support for the Sustainability Education Program developed by Jody Holmes of the Connecting Communities Association. I believe this program will be a valuable addition to your school curriculum, on a subject that matters to all of us.

The Sustainability Education Program curriculum covers fundamental topics of sustainability that all citizens of the world should know. Combined with Jody's knowledge of, and passion for, sustainability, this program will help inspire the next generation of students to take responsibility in their personal and professional lives.

The challenges we face are enormous, but the rewards of success are even greater. Societal change requires education, and I commend Jody and the Connecting Communities Association for taking their part in improving our world.

Sincerely,

Kyrke Gaudreau
UNBC Sustainability Manager
